About the Companion Website	<i>xxiii</i>

1 Assessment of the Lamé Horse	1
Introduction	1
Adaptive Strategies of Lamé Horses	1
Classification of Lameness	2
Anatomic Problem Areas	2
Signalment and Use	4
History	5
Visual Examination at Rest	5
Palpation and Manipulation	6
Overview	6
Foot	6
Coronet and heel bulbs	8
Pastern	9
Fetlock	10
Metacarpus/Metatarsus (MC/MT)	11
Suspensory Ligament	11
Flexor Tendons	13
Flexion Tests/Manipulation	29
Overview	29
Distal Limb/Phalangeal/Fetlock Flexion	30
Carpal Flexion	30
Elbow Flexion	31
Shoulder/Upper Forelimb Flexion	31
Tarsal/Hock Flexion	31
Subjective Assessment of Lameness	34
Overview	34
Subjective Scoring Methods	35
Evaluation of Lameness at the Walk	36
Evaluation of Lameness at the Trot	37
Use of Vertical Movement of the Head for Forelimb Lameness	38

Use of Withers Movement for Forelimb Lameness	38
Use of Vertical Pelvic Movement (VPM) for Hindlimb Lameness	39
Use of Pelvic Rotation Method (PRM) for Hindlimb Lameness	39
Observing Movement of the Limbs	40
Joint Angle Measurements Associated with Lameness	41
Stride Timing and Length Variables Associated with Lameness	41
Hoof Trajectory Associated with Lameness	41
Evaluation of Lameness at the Lunge	42
Evaluation of Lameness Under Saddle	42
Objective Assessment of Lameness	43
Overview	43
Kinetics – Measurement of Ground Reaction forces	43
Kinematics – Measurement of Movement	44
The Q® and Lameness Locator®	45
Measuring Forelimb Lameness Using the Lameness Locator®	47
Measuring Hindlimb Lameness Using the Lameness Locator®	48
Detecting Compensatory Lameness	49
Perineural Anesthesia	50
Overview	50
Types of Anesthetics	50
Skin Preparation and Restraint	50
Assessment of Response to Perineural Blocks	51
Palmar Digital (PD) Block (Figures 1.71 and 1.72)	52
Basisesamoid or High PD Block (Figures 1.73 and 1.74)	53
Abaxial Sesamoid Block (Figure 1.75)	53
Low Palmar or 4-point Block (Figure 1.76)	54
Lateral Palmar Block (Lateral Approach; Figures 1.78 and 1.79)	55
Lateral Palmar Block (Medial approach; Figures 1.78 and 1.80)	56
High Two-point Block (Figure 1.79)	57
Ulnar, Median, and Medial Cutaneous Antebrachial Nerve Blocks (Figure 1.81)	57
Intrasynovial Anesthesia	62
Overview	62
Skin Preparation and Restraint	62
Assessment of Response to Intrasynovial Blocks	64
Bibliography	86

2 Common Conditions of the Foot 92

Navicular Region and Soft Tissue Injuries of the Foot	92
Navicular Disease/Syndrome	92
Overview	92
Anatomy	92
Imaging	92
Fractures of the Navicular (Distal Sesamoid) Bone	99
Anatomy	99
Imaging	99

Soft Tissue Injuries in the Foot (DDFT and Podotrochlear Apparatus)	101
Overview	101
Anatomy	102
Imaging	102
Injuries to the CLs of the DIP Joint	105
Anatomy	105
Imaging	105
Coffin Joint and Distal Phalanx	107
Osteoarthritis (OA) of the DIP Joint	107
Anatomy	107
Imaging	109
Fractures of the Distal Phalanx (P3, Coffin Bone)	111
Overview	111
Anatomy	111
Imaging	111
Ossification of the Collateral Cartilage of the Distal Phalanx (Sidebone)	115
Overview	115
Anatomy	116
Imaging	116
Miscellaneous Conditions of the Foot	117
Sole Bruises, Corns, and Abscesses	117
Overview	117
Anatomy	118
Imaging	118
Septic Pedal Osteitis (PO)	120
Anatomy	120
Imaging	120
Penetrating Injuries of the Foot	121
Anatomy	121
Imaging	121
Keratoma	124
Overview	124
Anatomy	124
Imaging	124
White Line Disease	127
Overview	127
Anatomy and Imaging (Please refer to previous section on “Keratoma”)	128
Etiology	128
Thrush	129
Overview	129
Anatomy	129
Imaging	129
Canker	131
Overview	131
Anatomy and Imaging (see above section on “Thrush”)	132
Etiology	132

Laminitis	133
Overview	133
Anatomy	135
Imaging	136
Foot Care and Farriery	140
Basic Foot Care	140
Overview	140
Static Observation	140
Dynamic Observation	141
Hoof Imbalances	141
Guidelines for Trimming	142
Hoof Capsule Distortions/Abnormal Conformation	143
Overview	143
Anatomy	143
Imaging	144
Toe Cracks, Quarter Cracks, Heel Cracks	149
Overview	149
Anatomy and Imaging (Please refer to previous section on “Hoof Capsule Distortions”)	149
Etiology	149
Bibliography	152

3 Common Conditions of the Forelimb 159

Pastern	159
OA of the Proximal Interphalangeal (PIP) Joint	159
Overview	159
Anatomy	159
Imaging	159
Osteochondrosis (OC) of the PIP Joint	163
Overview	163
Anatomy (Please refer to previous section on “OA of PIP Joint”)	163
Imaging	163
Luxation/Subluxation of the PIP Joint	165
Overview	165
Anatomy	166
Imaging	166
Fractures of the Middle Phalanx (P2)	169
Overview	169
Anatomy	169
Imaging	169
Fractures of the Proximal Phalanx (P1)	173
Overview	173
Anatomy	173
Imaging	174
Desmitis of the Distal Sesamoidean Ligaments (DSLs)	178
Overview	178
Anatomy	178
Imaging	178

SDFT and DDFT Injuries in the Pastern	180
Overview	180
Anatomy	180
Imaging	181
Fetlock	183
Osteochondral (Chip) Fractures of Proximal P1	183
Overview	183
Anatomy	183
Imaging	183
Fractures of the Proximal Sesamoid Bones	185
Overview	185
Anatomy	186
Imaging	186
Sesamoiditis	188
Overview	188
Anatomy (Please refer to previous section on “PSB Fractures”)	189
Imaging	189
Axial Osteitis/Osteomyelitis of the PSBs	190
Overview	190
Anatomy (Please refer to the section on “PSB Fractures”)	191
Imaging	191
Traumatic OA of the MCP/MTP Joint	192
Overview	192
Anatomy (Please refer to the anatomy section under “Osteochondral Fractures of P1”)	192
Imaging	192
Palmar/Plantar Osteochondral Disease	194
Overview	194
Anatomy	194
Imaging	195
Fetlock Subchondral Cystic Lesions (SCLs)	196
Overview	196
Anatomy (Please refer to section on “Osteochondral Fractures of P1”)	196
Imaging (Please refer to section on “OA of Fetlock Joint”)	196
Traumatic Rupture of the Suspensory Apparatus	198
Overview	198
Anatomy	198
Imaging	199
Palmar/Plantar Annular Ligament (PAL) Constriction and DFTS	
Tenosynovitis	200
Overview	200
Anatomy	200
Imaging	200
Metacarpus/Metatarsus	202
Bucked Shin Complex and Stress Fractures of Dorsal MCIII	202
Overview	202
Anatomy	202
Imaging	202

MCI/MTI Condylar Fractures	205
Overview	205
Anatomy (Please refer to previous section on “POD”)	206
Imaging	206
Complete Fractures of the MCI/MTI (Cannon Bone)	208
Overview	208
Anatomy	208
Imaging	209
Metacarpal/Metatarsal Exostosis (Splints)	211
Overview	211
Anatomy	211
Imaging	212
Fractures of the Small MC/MT (Splint) Bones	213
Introduction	213
Anatomy (Please refer to previous section on “Splint Exostoses”)	213
Imaging (Please refer to previous section on “Splint Exostoses”)	213
Distal Fractures	214
Middle Fractures	215
Proximal Fractures	215
Suspensory Ligament (SL) Desmitis	216
Overview	216
Anatomy	217
Imaging	217
Degenerative Suspensory Ligament Desmitis (DSLDD)	220
Overview	220
Anatomy (Please refer to previous section on “SL Desmitis”)	220
Imaging (Please refer to previous section on “SL Desmitis”)	220
Superficial Digital Flexor (SDF) Tendinitis (Bowed Tendon)	221
Overview	221
Anatomy	222
Imaging	222
Carpus	225
Common Digital Extensor (CDE) Tendon Rupture	225
Overview	225
Anatomy	225
Imaging	225
Extensor Carpi Radialis (ECR) Tendon Damage	226
Overview	226
Anatomy (Please refer to previous section on “CDE Tendon Rupture”)	227
Imaging (Please refer to previous section on “CDE Tendon Rupture”)	227
Intra-Articular (IA) Carpal Fractures	228
Overview	228
Anatomy	228
Imaging	228
Accessory Carpal Bone Fractures	233
Overview	233

Anatomy (Please refer to previous sections on “IA Carpal Fractures Carpal Sheath Tenosynovitis”)	233
Imaging (Please refer to previous sections on “IA Carpal Fractures and Carpal Sheath Tenosynovitis”)	233
OA of the Carpus/Carpometacarpal OA	234
Overview	234
Anatomy (Please refer to previous section on “IA Carpal Fractures”)	234
Imaging (Please refer to previous section on “IA Carpal Fractures”)	234
Carpal Sheath Tenosynovitis/Osteochondroma of Radius	236
Overview	236
Anatomy	236
Imaging	236
Antebrachium, Elbow, and Humerus	239
Fractures of the Radius	239
Overview	239
Anatomy	240
Imaging	240
Fractures of the ULNA	242
Overview	242
Anatomy	242
Imaging	242
Subchondral Cystic Lesions (SCLs) of the Elbow	246
Overview	246
Anatomy (Please refer to previous section on “Ulnar Fractures”)	246
Imaging (Please refer to previous section on “Ulnar Fractures”)	246
Bursitis of the Elbow (Olecranon Bursitis)	247
Overview	247
Anatomy	248
Imaging	248
Fractures of the Humerus	249
Overview	249
Anatomy	250
Imaging	250
Shoulder and Scapula	251
Bicipital (Intertubercular Bursa) Bursitis	251
Overview	251
Anatomy	251
Imaging	252
Osteochondrosis (OC) of the Scapulohumeral (Shoulder) Joint	253
Overview	253
Anatomy	254
Imaging	254
Osteoarthritis (OA) of the Scapulohumeral (Shoulder) Joint	256
Overview	256
Anatomy (Please refer to previous section on “Shoulder OC”)	256
Imaging (Please refer to previous section on “Shoulder OC”)	256

Suprascapular Nerve Injury (Sweeny) 257

Overview 257

Anatomy 258

Imaging 258

Fractures of the Scapula/Supraglenoid Tubercle (SGT) 260

Overview 260

Anatomy 260

Imaging 260

Bibliography 262

4 Common Conditions of the Hindlimb 272

Distal Hindlimb and Foot 272

Overview 272

Anatomy 272

Imaging 272

Tarsus 274

Distal Tarsal Osteoarthritis (OA) 274

Overview 274

Anatomy 274

Imaging 274

Osteochondritis Dissecans (OCD) of the TC Joint/Bog Spavin 279

Overview 279

Anatomy (Please refer to previous section on “Distal Tarsal OA”) 279

Imaging (Please refer to the previous section on “Distal Tarsal OA”) 279

Slab/Sagittal Fractures of the Small Tarsal Bones 281

Overview 281

Anatomy 281

Imaging 281

Subluxation/Luxation of the Tarsal Joints 282

Overview 282

Anatomy 283

Imaging 283

Fractures of the Tibial Malleoli 284

Overview 284

Anatomy 284

Imaging 285

Tarsal Collateral Ligament (CL) Injuries 286

Overview 286

Anatomy (Please refer to previous sections on “Tarsal Luxation and Tibial Malleoli Fractures”) 286

Imaging (Please refer to previous sections on “Tarsal Luxation and Tibial Malleoli Fractures”) 286

Capped Hock/Calcaneal Bursitis 287

Overview 287

Anatomy 287

Imaging 289

Luxation of the SDFT from the Calcaneus 291

Overview 291

Anatomy (Please refer to previous section on “Calcaneal Bursitis/Capped Hock”)	291
Imaging (Please refer to previous section on “Calcaneal Bursitis/Capped Hock”)	291
Tarsal Sheath Tenosynovitis (Thoroughpin)	292
Overview	292
Anatomy	292
Imaging	293
Rupture of the Peroneus Tertius (Fibularis Tertius)	296
Overview	296
Anatomy	296
Imaging	297
Stringhalt	297
Overview	297
Anatomy and Imaging	298
Etiology	298
Tibia and Crus	299
Tibial Stress Fractures	299
Overview	299
Anatomy	299
Imaging	299
Diaphyseal and Metaphyseal Tibial Fractures	301
Overview	301
Anatomy (Please refer to previous section on “Tibial Stress Fractures”)	301
Imaging (Please refer to previous section on “Tibial Stress Fractures”)	301
Tibial Tuberosity/Crest Fractures	302
Overview	302
Anatomy	303
Imaging	303
Fractures of the Proximal Tibial Pysis	305
Overview	305
Anatomy (Please refer to previous section on “Tibial Tuberosity Fractures”)	305
Imaging (Please refer to previous section on “Tibial Tuberosity Fractures”)	305
Gastrocnemius Disruption in Foals and Adults	306
Overview	306
Anatomy	307
Imaging	307
Stifle – Femoropatellar Region	308
Femoropatellar OCD	308
Overview	308
Anatomy	308
Imaging	309
Fractures of the Patella	311
Overview	311
Anatomy	311
Imaging	312
Upward Fixation of the Patella (UFP)	314
Overview	314
Anatomy (Please refer to previous section on “Patella Fractures”)	314
Imaging (Please refer to previous section on “Patella Fractures”)	314

Stifle – Femorotibial Region	316
Subchondral Cystic Lesions (SCLs) of the Stifle	316
Overview	316
Anatomy	316
Imaging	316
Meniscal Injuries	320
Overview	320
Anatomy	320
Imaging	320
Collateral/Cruciate Ligament Injury	322
Overview	322
Anatomy (Please refer to sections on “SCLs and Meniscal Injuries”)	322
Imaging (Please refer to sections on “SCLs and Meniscal Injuries”)	322
Synovitis/Capsulitis/OA of the Femorotibial Joints	323
Overview	323
Anatomy (Please refer to section on “SCLs and Meniscal Injuries”)	324
Imaging (Please refer to section on “SCLs and Meniscal Injuries”)	324
Femur and Coxofemoral Region	325
Fibrotic Myopathy	325
Overview	325
Anatomy	325
Imaging	326
Trochanteric Bursitis (Whirlbone Lameness)	328
Overview	328
Anatomy	328
Imaging	328
Diaphyseal and Metaphyseal Femoral Fractures	329
Overview	329
Anatomy	329
Imaging	329
Capital Physeal Fractures of the Femoral Head	331
Overview	331
Anatomy	331
Imaging	331
Coxofemoral Joint Luxation/Subluxation (Dislocation of the HIP Joint)	333
Overview	333
Anatomy	333
Imaging	333
OA of the Coxofemoral Joint	336
Overview	336
Anatomy (See previous section on coxofemoral joint luxation/subluxation)	336
Imaging (See previous section on coxofemoral joint luxation/subluxation)	336
Infectious Arthritis and OC of the Coxofemoral Joint	338
Overview	338
Anatomy (Please refer to previous sections on “Capital Physeal Fracture and Coxofemoral Joint Luxation”)	338

Imaging (Please refer to previous sections on “Capital Physeal Fracture and Coxofemoral Joint Luxation”)	338
Bibliography	340

5 Common Conditions of the Axial Skeleton 349

The Pelvis	349
Pelvic Fractures	349
Overview	349
Anatomy	349
Imaging	349
Iliac Wing Fractures	351
Anatomy (Please refer to previous section on “Pelvic Fractures”)	351
Imaging (Please refer to previous section on “Pelvic Fractures”)	351
Tuber Coxae Fractures	352
Anatomy (Please refer to previous section on “Pelvic Fractures”)	352
Imaging (Please refer to previous section on “Pelvic Fractures”)	352
Acetabular Fractures	353
Anatomy (Please refer to previous section on “Pelvic Fractures”)	353
Imaging (Please refer to previous section on “Pelvic Fractures”)	353
Fractures of the Sacrum and Coccygeal Vertebrae	353
Anatomy	353
Imaging	354
The Sacroiliac (SI) Region	355
Overview	355
Anatomy	355
Imaging	355
Thoracolumbar Region/Back	357
Overriding/Impingement of Dorsal Spinous Processes	357
Overview	357
Anatomy	357
Imaging	357
Supraspinous Ligament Injuries	359
Anatomy (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	359
Imaging (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	359
Fractures of the Spinous Processes	360
Anatomy (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	360
Imaging (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	360
Vertebral Fractures	361
Anatomy (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	361
Imaging (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	361
Discospondylitis	362
Overview	362
Anatomy (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	362

Imaging (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	362
Spondylosis	363
Overview	363
Anatomy (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	364
Imaging (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	364
Facet Joint OA and Vertebral Facet Joint Syndrome	364
Overview	364
Anatomy (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	364
Imaging (Please refer to previous section on “Overriding Dorsal Spinous Processes”)	364
Neck and Poll	366
Nuchal Ligament Desmopathy/Nuchal Bursitis	366
Overview	366
Anatomy	367
Imaging	367
Cervical Facet Joint OA	368
Overview	368
Anatomy (Please refer to previous section of “Nuchal Ligament Desmopathy”)	368
Imaging (Please refer to previous section of “Nuchal Ligament Desmopathy”)	368
Bibliography	370

6 Therapeutic Options 374

Systemic/Parenteral	374
Overview	374
Parenteral NSAIDs	374
Polysulfated Glycosaminoglycans	374
Pentosan Polysulfate (PPS; in a Sodium or Calcium Derivative)	375
Topical/Local	376
Overview	376
Topical NSAIDs	377
Topical First Aid (Cold Therapy and Bandaging)	377
Dimethyl Sulfoxide (DMSO)	377
Extracorporeal Shock Wave Therapy (ESWT)	377
Intrasynovial	379
Overview	379
Corticosteroids	379
Hyaluronan	380
Corticosteroid and HA Combinations	380
Polysulfated Glycosaminoglycans	380
Intralesional	383
Overview	383
Hyaluronan and Polysulfated Glycosaminoglycans	383
Autologous Cell Therapies: Mesenchymal Stem Cell Therapy, Tendon-Derived Progenitor Cells	384
Blood-Derived Biologics: PRP, ACS, and Bone Marrow Aspirate	384

Oral/Nutritional	385
Nonsteroidal Anti-inflammatory Drugs (NSAIDs)	385
Overview	385
Phenylbutazone (PBZ; Butazolidin®, Butatron™, Bizolin®, Phenylbute™, Phenylzone®, Equiphen®, Butequine®, Superiorbute®, Equizone 100™)	387
Nutraceuticals	389
Overview	389
Glucosamine (GLN)	389
Manual Therapy	392
Overview	392
Massage Therapy	392
Rehabilitation/Physical Therapy	393
Overview	393
Soft Tissue and Joint Mobilization	394
Bibliography	398

7 Musculoskeletal Emergencies 407

Severe Unilateral Lameness	407
Overview	407
Etiology	407
Severely Swollen Limb	409
Overview	409
Etiology	409
Long Bone Fractures/Luxations	410
Overview	410
Etiology	410
Methods of Immobilization Based on Location (Figure 7.6)	412
Phalanges and Distal Metacarpus	412
Mid-Forelimb (Mid-Metacarpus to Distal Radius)	414
Middle and Proximal Radius	415
Proximal to the Elbow	415
Phalanges and Distal Metatarsus	416
Middle and Proximal Metatarsus	416
Tarsus and Tibia	417
Transportation	417
Definitive Treatment	417
Synovial Infections	418
Overview	418
Etiology	418
Tendon and Ligament Lacerations	421
Overview	421
Etiology	421
Bibliography	424
